

# My school is closing

People are talking about Coronavirus because it is a new illness. It is similar to a flu-bug. Children and adults are very good at fighting the flu.

To help keep everyone healthy, my school has had to close. I will spend a lot of time with my family. I may miss my school, but my family will plan fun activities for me to do at home.

It's okay if I feel worried or upset; my family will look after me.

**Back  
to  
School**

When my school opens again, I will be able to return to my school to continue my learning.
