

## **Week commencing Monday 30<sup>th</sup> March 2020**

Here are some ideas of activities that your children can do at home. We understand that many of you will still be working and this is not a list of compulsory homework. These are simply ideas which can be adapted as necessary and will help to consolidate previous learning from school. Please email us if you have any problems or questions

### **Writing**

Use this week's Sentence Stimuli document to write a daily sentence about each of the pictures. Remember to check your sentence once you have finished for capital letters, full stops and finger spaces. Can you read your writing? Does your sentence make sense? Some children may want to write more than one sentence.

For an extended writing activity, watch the short story 'Stuck' read by the author Oliver Jeffers.

Can you write about all the things that got stuck in the tree?

*\*We have had feedback from some parents that their children are really enjoying writing a daily diary. We understand that sometimes, children find it more difficult to engage with writing at home and this could be a good way to encourage some daily writing.*

### **Reading**

#### **All books available on 'Oxford Owl' in ages 4-5.**

This website is free to sign up to and will allow you to read books online.
