

## Y3/4 – Creating Pictograms

Here is some data I collected.

### Y3/4's favourite animals

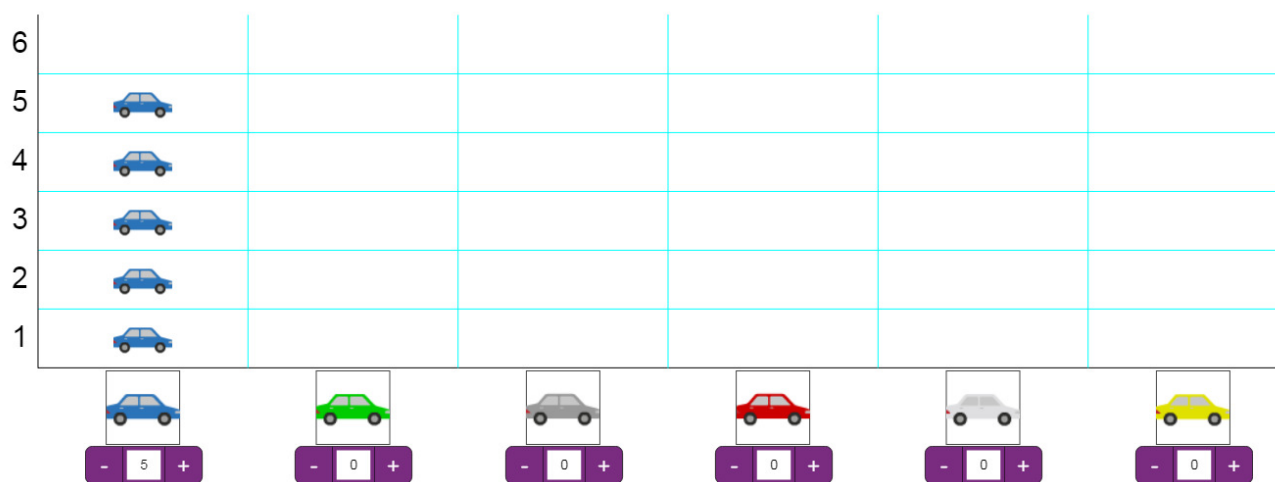

Dog	17
Cat	13
Rabbit	15
Elephant	18
Penguin	27
Snake	10

### Independent Practice

Today, I would like you to create a pictogram to represent this data.

You can do this on paper at home or by using '2Count' on Purple Mash.

## Y3/4's Favourite Animals

If you are using 2Count, remember that you can change the title by double clicking it. You can also change the cars into a different picture by double clicking these.

Remember that you can send your teacher an email if you would like them to see your work.
