

Y3/4 – Collecting Data for Pictograms

Starter

Go onto Purple Mash.

Into the search bar, type 'Pictograms'.

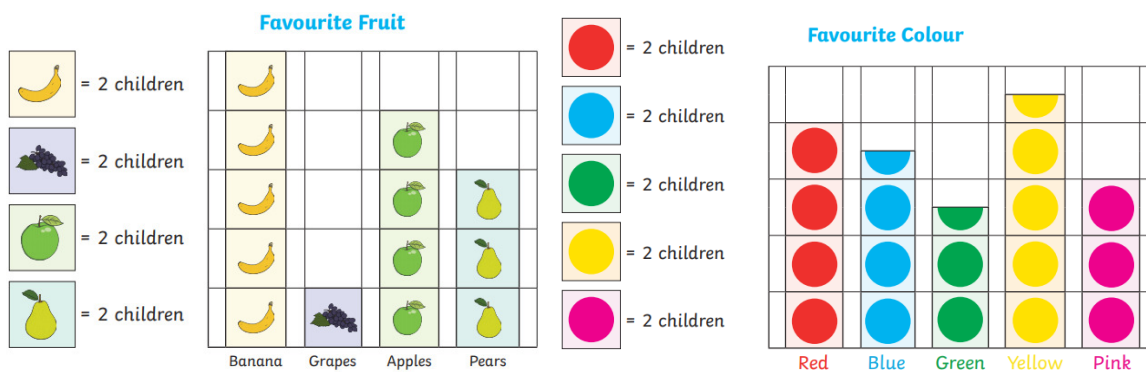

Click on 'Interpreting Pictograms' and complete it.

Independent Practice

Today you will be collecting data to do your own pictogram.

Here are some ideas you could use:

Draw a table and collect your own data. If you need other people to give you data (e.g. if you want to find out people's favourite sport), you could email them on Purple Mash or ask your parent/carer for permission to message or phone some of your friends.
