LO: To recognise a half

1. Complete the sentences.

The whole cake is split into

equal parts.

Each part is worth a half .

This can be written as

2. Which diagrams have a half shaded?

A

B

C

D

3. Is $\frac{1}{2}$ of each shape shaded? How do you know?

a)

b)

A) This is not a half as the parts are not equal.

B) This is not a half it has been divided into three equal parts, rather than two.

4. Draw 4 identical squares in your book. Can you show four different ways of colouring in half of the square?

5. Only half of each shape has been drawn. Draw the whole shape in your book.

6.

The shaded part of this shape does not show a half because the shape is not split into 2 equal parts.

a) Is Tommy correct? No

b) How do you know?

If you move all of the green sections down to the bottom row, you can see that it is half of the rectangle that is shaded in.
