Independent Practice LESSON 4 (Fractions lesson ii)

LO: To find equivalent fractions

Copy and complete these equivalent fractions:

$$2/3 = 8/12$$

$$3/4 = 15/20$$

$$3/7 = 6/14$$

$$5/6 = 15/18$$

$$7/8 = 42/48$$

$$2/5 = 40/100$$

$$4/9 = 16/36$$

$$8/25 = 64/200$$

$$7/12 = 35/60$$

$$3/4 = 75/100$$

Write the odd one out in each set of fractions. One of the fractions in each set is **not** equivalent to the others.

a) $4/12$ $3/8$ $2/6$ $3/9$ $3/8$ is the odd one out (the others are all $1/3$)

b) $5/10$ $6/12$ $2/5$ $3/6$ $2/5$ is the odd one out (the others are all $1/2$)

c) $8/12$ $75/100$ $9/12$ $6/8$ $8/12$ is the odd one out (the others are all $3/4$)

d) $9/12$ $8/12$ $4/6$ $6/9$ $9/12$ is the odd one out (the others are all $2/3$)
