

To find number bonds to 100.

We are going to have a second day finding number bonds to 100 as it is new learning for you. Click the link below to watch the lesson.

<https://www.loom.com/share/a15929974b6349c0886b6ce4dd2dc344>

Your turn.

If you find it tricky to remember your bonds to 10, you might want to go back to the website from yesterday and keep practicing (<https://www.topmarks.co.uk/maths-games/hit-the-button>) or you could use the bonds to 10 here to help you.

$0 + 10$

$1 + 9$

$2 + 8$

$3 + 7$

$4 + 6$

$5 + 5$

For the calculations below, write them out in your Home Learning book or put your answers in the document if you are in Teams. **Remember you can draw out the dienes to help.**

$56 + \quad = 100$

$17 + \quad = 100$

$25 + \quad = 100$

$89 + \quad = 100$

$100 = 72 +$

$100 = 94 +$

Extra Practice

If you understand pairs to 100 well and want to increase your speed of working out the bonds to 100, click on the link below. Select 'Number Bonds', then the 'Add to 100' option on the right hand side.
