

END OF YEAR REVIEW

- ▶ Think about the following things:
- ▶ How do I feel I have done academically this year?
- ▶ Is there anything that I am proud of that I have done this year?
This can be academic or something else.
- ▶ What have I enjoyed the most about this year?
- ▶ What will I miss the most about this year? (Or the school if you are in Year 6).

FIRSTLY – TIME TO REFLECT

▶ **How do I feel I have done academically this year?**

How have you done with English and maths? Are there any subjects you have excelled in? – Art, PE etc.

▶ **Is there anything that I am proud of that I have done this year? This can be academic or something else.**

This may be something in school which is academic, it may be an achievement in school such as House Captain, staying out of trouble etc? It could also be a club which you attend outside of school.

▶ **What have I enjoyed the most about this year?**

This could be anything from being in the oldest year group to the class you have been in. Genuinely anything which you have enjoyed the most.

▶ **What will I miss the most about this year? (Or the school if you are in Year 6).**

Simple – what will you miss? This will more than likely be things from the beginning of the year as lockdown has not been our ideal at all!

▶ **What am I looking forward to next year?**

This could be anything – is there anything in school or out of school you are looking forward to?

▶ **Is there anything that I want to do better at or improve upon next year?**

What part of school would you like to improve upon? Is it something like your English and maths? Is it a different subject or perhaps a new subject if you are going into secondary school? It could be that you want to improve your behaviour. The list is endless and whatever you choose is a personal choice to you.

▶ **Is there anything which I am nervous about next year?**

Do you have any worries or fears for next year? This could be a new teacher, new school, new friends in your class, it could simply be that you are nervous about getting back into the swing of school after lockdown this year.
