

Willingham Primary School

Relationships Education Policy Including Sex Education Policy

March 2022

Date Reviewed: 3rd March 2022

Next Review Date: March 2025

This Relationships Education Policy(RSE) must be read in conjunction with our Personal Social Health and Citizenship Education (PSHCE) Policy.

1 Context

1.1 Relationships Education in our school

We believe Relationships Education is learning about emotional, social and physical aspects of our lives, about ourselves and our relationships. It enables pupils to develop essential life skills for building and maintaining positive, enjoyable, respectful and non-exploitative relationships. It equips pupils with information and skills they need to understand about themselves, their peers and people they meet in the wider community. It explores risks, choices, rights, responsibilities and attitudes. It will help pupils to develop skills to keep themselves and others safer, physically and emotionally, both on and offline. Relationships Education enables pupils to explore their own attitudes and those of others respectfully.

Relationships Education makes a major contribution to fulfilling our school's mission. The Willingham Primary School (WPS) mission is "to provide pupils with the knowledge, experiences and confidence they need to excel at secondary school and so that they can make the choices, now and in the future, to have a happy, fulfilling life."

1.2 Context of Wider PSHCE

We deliver Relationships Education as part of our wider provision of Personal, Social, Health and Citizenship Education (PSHCE), which also includes statutory Health Education.

The aims of Relationships Education are further supported by interventions, extracurricular and enrichment activities we provide. WPS employs a full-time Emotional Support Assistant (ESA) which is a significant support to the children and families. Other activities include daily reminders and appreciations related to our school values and drivers, Celebration Assemblies, House Days, Play Leaders, School Council, Anti-Bullying week.

1.3 Intent of Our Relationships Education Curriculum

Through the delivery of Relationships Education, we intend to further our school's aims of providing a curriculum which is relevant to the needs of pupils, both now and in the future. It will enable pupils to develop knowledge, skills and attitudes which enhance their personal development and wellbeing. This will have a direct, positive effect on their progress and achievement in school.

All adults in school will work towards achieving these aims for Relationships Education. We seek to enable our children to:

- develop interpersonal and communication skills
- develop positive, personal values and a moral framework that will guide their decisions and behaviour
- respect themselves and others, their views, backgrounds, cultures and experiences
- develop respectful, caring relationships based on mutuality, reciprocity and trust
- develop their ability to keep themselves and others safe, physically and emotionally, both on and off line
- develop their understanding of a variety of families and how families are central to the wellbeing of children
- recognise and avoid coercive and exploitative relationships
- explore relationships in ways appropriate to their age and stage of development

- value, care for and respect their bodies
- build confidence in accessing additional advice and support for themselves and others.

2 Implementing Our Policy

2.1 Inclusion

In relation to those with special educational needs or disability, we ensure our Relationships Education programme provides for those with additional needs. We recognise that those with Special Education Needs and Disability (SEND) are often more vulnerable to sexual harassment and abuse and that we need to ensure that children are supported to develop appropriate strategies and attitudes to keep themselves safer. We consider:

- their level of vulnerability to coercion and pressure
- their previous experience of negative behaviours in peer or child-adult relationships
- their need to learn and demonstrate appropriate behaviour
- their need to develop self-esteem and positive body image
- the need to involve all staff, including ancillary staff and parents/carers, in policy development, planning and training
- the management of personal care
- clarity about sources of support for pupils.

2.2 Equality

The [Equality Act 2010](#) has special resonance in Relationships Education. Through this area of learning we seek to develop key interpersonal skills such as respect and empathy which enable pupils to understand the rights and responsibilities we all have towards one another.

The protected characteristics are: age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

We will ensure that our provision of Relationships Education is not only equally accessible and inclusive for all pupils with protected characteristics, or who have family members with protected characteristics, but also that it reduces discrimination, advances equality of opportunity and encourages good relations between different groups.

In order to ensure that Relationships Education meets the needs of all:

- We will reflect a range of lifestyles and family structures so that all children see themselves and their families reflected in the lessons.
- We will ensure that the law in relation to, for example, marriage, online behaviours, sexuality, gender and violence are explained in age-appropriate ways.
- Where there are different cultural or religious views about families, relationships or behaviours, we will share these to ensure children see their family views represented.
- We will not seek to gain consensus but will accept and celebrate difference.
- We will, as appropriate, ensure that a variety of views and beliefs are reflected to pupils.
- In order to ensure that children of all genders can access information they need, we will teach in mixed gender groups wherever possible.
- We will encourage respect and discourage abusive and exploitative relationships.

- We will not ask children to represent the views of a particular religious or cultural group to their peers, unless they choose to do so.

We support children in developing their knowledge about and attitudes towards diversity throughout units of work including:

- Diversity and Communities
- Family and Friends
- Beginning and Belonging

2.3 Safeguarding

We understand the importance of high-quality Relationships Education as we fulfil our statutory safeguarding duties. Relationship Education enables pupils to understand about mutual, consensual and reciprocated relationships in all their forms. Whether the children are learning about friendships, families, relationships in school or the wider community, they will be developing essential skills which underpin their ability to recognise abusive relationships. Teaching about 'Family and Friends' and 'Anti-bullying' enables us to fulfil our statutory duty to prevent 'peer-on-peer' abuse.

In the case of Relationships and Sex Education (RSE) and Personal Safety, we recognise that effective teaching may alert children to what is appropriate and inappropriate behaviour (including inappropriate sexual behaviour) and that there is an increased possibility that a disclosure relating to abuse may be made. RSE and Personal Safety enable us to fulfil our duty to prevent Female Genital Mutilation (FGM). Staff receive annual training on the Safeguarding and Child Protection procedures and report disclosures or concerns to the Designated Safeguarding Lead (DSL) using myconcern. If there are concerns about immediate risk or harm to the child, staff report the concern in-person to a DSL as soon as possible, then log the concern on myconcern afterwards.

The DSLs are currently the Headteacher, the Deputy Headteacher, the Special Educational Needs Co-ordinator, the Emotional Support Assistant, the After School Manager, the Head and Deputy of Honeypot pre-school.

Sexually Active Pupils: There are extremely rare occasions where a primary-aged child, who is sexually active or contemplating sexual activity, approaches an adult. If this occurs in our school, it will be viewed as a child protection issue. The designated member of staff will follow Safeguarding Procedures and seek advice from the DSL.

2.4 Development of the Policy

This policy has been developed in consultation with staff, governors and parents/carers. The consultation period followed the provision of information about the duties and statutory elements which must be included in Relationships Education.

Views expressed by staff, governors and parents/carers about the policy have been considered. Consultation did not give a veto to individual members of the school community. The final decision on policy and delivery has been made by the school, having listened to the needs and views of the school community.

2.5 Consulting on our Policy

Parents/carers and other stakeholders have been given information about Relationships Education and associated duties in ways which are accessible to them. They have been asked for their views about appropriate ages for particular topics, to share relevant views and beliefs and to consider the aims and proposed curriculum for RSE through sharing the draft policy and core content.

Further consultation with parents/carers and pupils will be carried out when the policy is reviewed, which happens at least every 3 years.

3 Involving the Whole School Community

3.1 Working with Staff

Teaching Relationships Education can be very rewarding, but we understand that, in order to feel confident, staff need opportunities to develop their own knowledge, skills and attitudes. We recognise that every adult has different personal beliefs and attitudes, but that all teachers must understand and comply with their duties connected with safeguarding, equality and inclusion.

Teachers have a duty to deliver statutory areas of the curriculum and all teachers will be supported to develop their skills in delivering non statutory areas such as sex education. We will discuss relevant issues and staff concerns and, where appropriate, arrange training within Professional Development meetings to enable staff members to feel confident in delivering the various aspects of Relationships Education. We will also encourage the sharing of good practice. We may also use team teaching to develop confidence.

Those with special responsibility for the development of Relationships Education will be offered opportunities to consult with advisors and attend external training courses. WPS subscribe to the Cambridgeshire PSHE Service and therefore have access to guidance documents and consultation time with an advisor.

3.2 Engaging with Pupils

We will involve pupils in the evaluation and development of their Relationships Education in ways appropriate to their age. We will seek opportunities to discuss children's views about the content of their PSHCE lessons by:

- referring to local/countywide/national data e.g., taking part in the annual Year 5/6 Health Related Behaviour Survey for our school every other year
- encouraging pupils to ask questions as they arise by providing anonymous question boxes in Year 2 to Year 6
- consulting pupils through School Council and Subject Lead Pupil Voice interviews/questionnaires about their perception of the strengths of our Relationships Education provision and the areas to be further developed

3.3 Working with Governors

This policy has been developed with Governors. For the governors to fulfil their statutory duties, initial discussions were held at a Full Governor meeting, followed by a more in-depth look at content by the Curriculum Committee.

It is the responsibility of the governors to ensure, through consultation, that the Relationships Education Policy reflects the needs and views of our community. The Curriculum Governor Committee have the responsibility for monitoring and overseeing.

In order to facilitate this process, the Relationships Education Policy will appear annually on the agenda of the Curriculum Committee governors' meeting. The policy will be available on the school's website.

It is the role of governors to ensure that:

- pupils make progress in Relationships Education in line with the expected educational outcomes
- the subject is well led, effectively managed and well planned
- the quality of provision is subject to regular and effective self-evaluation
- teaching is delivered in a way which is accessible to all
- clear information is given to parents/carers
- the subject is resourced and taught in a way which enables the school to fulfil statutory requirements.

3.4 Communicating with Parents/carers

Parents/carers are the first educators of their children about relationships, emotions, empathy, respect and growing up. We recognise that many children like to receive information about relationships from their parents/carers in addition to their learning in school. Therefore, we seek to work in partnership with parents/carers when planning and delivering Relationships Education. We will encourage this partnership by:

- Sharing details of our curriculum on our website
- Informing parents/carers by email of forthcoming Relationships Education topics, outlining the content, approaches and ways in which parents/carers can support
- Inviting concerned parents into school to learn more about the approach and content used in Relationships Education and RSE
- Signposting parents/carers to sources of support such as the school family worker, to help them address the needs of their child or build their own confidence in talking about relationships with their children.

3.5 Working with External Agencies and the Wider Community

We believe that all aspects of Relationships Education are most effectively taught by those who know our pupils well and are aware of their needs. We encourage visitors to our school, who may enhance, but never replace, our planned provision. We will work closely with visitors to ensure that the needs of our pupils are met.

We will follow this Code of Practice when working with visitors:

- The care and management of pupils is the responsibility of the school at all times.
- In class teaching situations, visitors will not be asked to work alone with pupils but will be supported by a member of staff.
- The school will know whether visitors are DBS checked and arrangements will be made to accompany them as appropriate.
- All visitors will be made aware of the content and principles of this Policy, prior to their visit.
- All lessons will be planned in direct liaison with the PSHCE Co-ordinator/Class teacher, taking account of the age and needs of the group and the context of the work within the Relationships Education programme.
- Visitors will be reminded that, whilst contributing to Relationships Education in a classroom setting, they must adhere to the same confidentiality code as staff members. Class teaching must be seen as separate from health or other targeted interventions to support wellbeing.

- Any resources which a visitor wishes to use or distribute will be discussed and agreed with the PSHE Co-ordinator/Class Teacher beforehand.
- The contributions of visitors will be regularly monitored and evaluated.

4 Curriculum Organisation

Our Relationships Education Curriculum (see appendix) is wholly consistent with the DfE statutory requirements for Relationships Education and Health Education (2020), National Curriculum (2014), other DfE and Ofsted guidance. It also reflects best practice described by the Sex Education Forum and PSHE Association. We consider Relationships Education to be a continuous process of learning, which begins before the children enter our school and continues into adulthood. We have planned a curriculum appropriate to each age group with a spiral of progression. All adults working with children have a part to play in supporting the delivery of Relationships Education.

Relationships Education is learning about:

- Families and People who care for me
- Caring Friendships
- Respectful relationships
- Online Relationships
- Being Safe

Our PSHE topic structure does not separate delivery of Relationships Education from Health Education and wider PSHE. We deliver topics which, taking the lead from children's lived experiences, consider related themes including development of knowledge, skills and attitudes in an integrated way. The topics where Relationships Education is a significant driver are:

- Anti-bullying
- Digital Lifestyles
- Diversity and Communities
- Family and Friends
- Managing Change
- My Emotions
- Personal Safety
- Relationships and Sex Education

Also: Working Together, Beginning and Belonging, Rights, Rules and Responsibilities

Relationships Education will be taught in:

- PSHE through designated lessons, focused events, House Days, promotion of school values
- Other curriculum areas, especially Science, RE, PE and computing
- Enrichment activities, especially our assemblies, House structure, ESA support, lunchtime Sports clubs, involvement in school trips

4.1 Teaching Methodologies

Our aim is that teachers use a range of teaching methodologies where skills such as communication, compromise and negotiation are practised in classroom situations and where attitudes such as respect and empathy are modelled and discussed. We encourage teachers to ensure that group work, debate, taking other people's viewpoints and working together are practised in all PSHE lessons and across the wider curriculum. Our Relationships Education lessons are not simple opportunities to give information, but to explore views and perspectives and develop possible solutions through discussion and interaction.

In keeping with this approach, we base our curriculum on a series of questions children will have the opportunity to engage with, rather than banks of knowledge they will acquire.

Ground Rules: Relationships Education is taught in a safe, non-judgemental environment where all adults and children are confident that they will be respected. Specific ground rules will be established at the beginning of any Relationships Education work, in addition to those already used in the classroom. They will cover the following areas:

- appropriate use of language
- the asking and answering of personal questions
- strategies for checking or accessing information.

Distancing Techniques: In order to protect children's privacy, we will employ teaching and learning strategies which enable them to discuss issues without disclosing personal experience. For example, we will use fiction, puppets, case studies, role-play, videos to enable children to share ideas and opinions and to practise their decision-making skills in a safe learning environment.

4.2 Anti-bullying and Friends and Family

4.2.1 Our Aims for Anti-bullying and Friends and Family

We recognise that children learn about skills which contribute to their ability to build and sustain healthy relationships in a wide variety of ways, not only through planned lessons, but through their everyday experiences at school and at home. Our school ethos, wider enrichment opportunities and the interventions and support offered all contribute to the development of these skills.

In addition to our broad aims for Relationships Education, in our planned lessons on Anti-bullying and Family and Friends we aim to ensure that children:

- Learn skills for developing and sustaining healthy friendships
- Are able to apply principles of mutuality, equality, respect and loyalty across different types of relationships
- Are able to identify coercion, manipulation and power imbalance across different types of relationships
- Learn that empathy, communication skills, emotional literacy and positive mental health all contribute to healthy relationships

- Learn about the breadth of different family structures, lifestyles, religions and cultures and understand how to show respect and celebrate difference
- Are able to ask for support and support others when relationships are tough.

4.2.2 Our School Context

We weave a variety of approaches which support anti-bullying and positive friendships into the wider life of our school e.g., strong, clear self-regulation and behaviour ethos, lunchtime ESA support, participation in Anti-bullying week and assemblies.

All members of staff understand their role in supporting our strong positive behaviour approach, from monitoring and logging any negative or concerning behaviour (Pupil Asset/myconcern) to promoting positive behaviours in our three daily appreciations.

Other school policies which are particularly relevant to our work to support mental health are Safeguarding, Self-Regulation and Behaviour Policy, Acceptable Use.

4.3 Relationships and Sex Education (RSE)

4.3.1 Our Aims for RSE

We recognise that children learn about relationships and their growing and changing bodies at home and at school. We believe that a partnership between home and school is the most supportive environment for learning in this area. At school children learn about RSE topics through planned lessons, but also through wider provision and our inclusive school environment.

In addition to our broad aims for Relationships Education, in our planned lessons on Relationships and Sex Education we aim to ensure that children:

- develop understanding of the value of stable relationships and family life as a positive environment for bringing up children
- name the private parts of the body confidently and communicate with trusted adults to keep themselves safe
- be prepared for puberty and the emotional and physical effects of body changes, including menstrual wellbeing (KS2)
- understand the attitudes and skills needed to maintain personal hygiene

4.3.2 Our School Context

Our topic, RSE, combines elements of Relationships Education (e.g., learning about families, personal safety and emotional wellbeing) with aspects of Health Education (e.g., learning about the spread of illnesses and the changing adolescent body). This combination offers the best location for our provision of non-statutory sex education. Although 'RSE' as a subject is not statutory at primary level, many aspects of our RSE topic are statutory parts of Relationships Education and Health Education. Some elements of our RSE topic are part of the statutory National Curriculum for Science (e.g., the biological aspects of puberty, reproduction and the spread of viruses).

We will ensure that children receive teaching about puberty at Y5 and Y6 in order to prepare them for the physical, emotional and social changes they are approaching or undergoing.

We understand that at times children will benefit from varying methods of delivering the RSE curriculum. For example, in Year 5 and 6, we will use single-sex groups or small group teaching where this will help us to meet the needs of particular children more effectively, we will use team teaching where this enables us to best use teacher expertise. We will ensure there are positive educational reasons for each method of delivery.

4.4 Curriculum Materials and Resources

We will primarily use the Cambridgeshire Primary Personal Development Programme and the resources recommended within it when planning and delivering Relationships Education. For any additional resources used, we will ensure careful evaluation before using them. We will select resources which:

- are consistent with our policy and curriculum for Relationships Education
- are suitable to the age, maturity, needs, linguistic proficiency and ability of the children
- are up to date in factual content
- do not show unfair bias e.g., towards a commercial product, religious viewpoint
- avoid racial, gender, sexual, cultural and religious stereotyping and heteronormativity
- encourage active and participative learning
- conform to the statutory requirements for Relationships Education.

4.5 Safe and Effective Practice

In our school we have clear guidelines around confidentiality when safeguarding children, which is shared with staff, pupils and parents/carers. These guidelines are set out in the school's Safeguarding and Child Protection Policy, the staff Code of Conduct and Staff Handbook. The Safeguarding and Child Protection policy is communicated to parents/carers via the school website. The policy states that:

- Information about children and their families is defined as 'special category data', i.e., information that identifies a living individual. Collection, storage and sharing of personal data is governed by the UK General Data Protection Regulations (UK GDPR) and the Data Protection Act 2018.

The school will:

- Ensure staff and volunteers adhere to confidentiality protocols and that information is shared appropriately.
- Ensure staff are aware that they have a professional responsibility to share information with other agencies in order to safeguard children,
- Ensure staff are clear with children that they cannot promise to keep secrets.

Professionals, such as school nurses and youth workers, are bound by their professional codes of conduct when offering advice and guidance to individual pupils. This often involves offering a greater level of confidentiality than school staff are able to give. However, in a classroom and other teaching situations, when they are contributing to our planned Relationships Education programme, they will follow the school's Confidentiality Policy. Health professionals will ensure that children are aware of the boundaries of confidentiality when beginning work with classes.

Answering Questions: We acknowledge that sensitive and complex issues will arise in Relationships Education, as pupils will naturally ask questions. When spontaneous discussion arises, it will be guided in a way which reflects the stated school aims and curriculum content. As a first principle, we will answer questions relating to the planned curriculum for that age group or below to the whole

class. We will answer questions relating to areas beyond the planned curriculum for that age group, in a sensitive and age-appropriate way, only to the pupil/s who have asked the question. Teacher may decide to inform families about questions which go beyond the planned curriculum, in order to further home/school partnerships. If a member of staff is uncertain about the answer to a question which goes beyond the curriculum, or indeed whether they wish to answer it, they will seek guidance from the PSHCE leader and a Designated Safeguarding Lead. In some cases, the question will reach beyond the planned curriculum for Y6 and the question will not be answered in school. The child will be asked if they would like support to discuss with their parents.

When answering questions, we shall ensure that sharing personal information by adults, pupils or their families is discouraged. Where the question indicates the need for pastoral support, the conversation will be deferred to a time outside the teaching session and other colleagues may be involved, for example the ESA.

Where a question or comment from a pupil in the classroom is of concern and indicates the possibility of abuse, coercion or exploitation, teachers will pass this information to the DSL in line with the school Safeguarding policy.

4.6 Assessment, Recording, Reporting

Relationships Education will be assessed in a variety of ways, including the use of self-assessment and teacher assessment. Guidance provided in the Cambridgeshire Primary PDP will be used.

At WPS, the children to record key learning in a PSHCE Book, which follows them through school, to show their development and progress.

5 Sex Education Policy

5.1 Definition of Sex Education

Following guidance from the DfE, we define Sex Education as learning about ‘how a (human) baby is conceived and born’.

This extends the learning about sexual reproduction in ‘some plants and animals’ required through the Science national curriculum. It also complements the statutory requirement to teach about puberty as part of Science and Health Education, as understanding sexual reproduction in humans enables children to understand the processes of puberty.

5.2 Consultation about Sex Education

We have considered the DfE’s recommendation that all primary schools have a Sex Education programme, and we understand that this is not statutory. We understand that our teaching in sex education must be tailored to the needs and physical and emotional maturity of the pupils.

In the Spring and Summer of 2021, parents/carers and governors were consulted, and our school has decided that we will offer content in Sex Education in the context of Relationships Education and RSE.

5.3 Content of Sex Education

The content of our Sex Education programme will be gradually developed in an age-appropriate way. The children will not learn about human sexual reproduction until Y5/6.

Y1/2 will learn that human babies grow inside their mothers alongside learning in Science that adult animals produce offspring like themselves. (Cats have kittens. Cows have calves etc.)

Y3/4 will learn that every human began when a seed from a male and an egg from a female join together. They will not yet learn about the means by which egg and sperm join.

Y6 will learn about human sexual reproduction and other ways that eggs and sperm are joined (eg IVF) in age-appropriate detail. They will learn about vaginal birth and caesarean section in age-appropriate ways, reflecting the experiences of children and families they know.

5.4 Teaching Methodologies

In Sex Education there is a certain amount of knowledge which must be imparted. Teachers will give the facts in an accessible way using a range of approaches, such as picture books and scientific descriptions. We will avoid resource-led approaches which rely on worksheets or lengthy audio-visual resources. Pupils will be asked to consolidate their learning in ways which enable them to develop skills to discuss sexual body parts and functions confidently.

5.5 Delivery of the Sex Education Curriculum

Sex Education will be delivered as part of our topic called Relationships and Sex Education (RSE) by a teacher, who knows the needs and natures of the children. The teacher is best placed to tailor the learning to the needs of the pupils.

Parents/carers will be informed by email about the content of the curriculum in advance of teaching and will be invited to talk to staff if they have questions.

Teachers will be offered support to develop their skills and to learn from others where needed.

5.6 Right to be excused from Sex Education

Parents/carers have the right to request that their child be excused from some or all of Sex Education delivered as part of statutory Relationships Education. Before granting any such request the PSHE Subject Lead and Senior Subject Lead/class teacher will discuss the request with parents/carers (and if appropriate with the child) to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. The educational, social and emotional benefits for the child of being part of the lessons will also be discussed. We will record the discussion and the outcomes.

We will consider compromise arrangements which will enable the child to receive Sex Education at school (e.g., small group teaching with a TA).

We will offer support to parents/carers who wish to deliver Sex Education at home.

If a pupil is excused from Sex Education, we will ensure that the pupil receives appropriate, purposeful education during the period of withdrawal.

The parents/carers will be asked to reconfirm their decision to withdraw their children from Sex Education each time a Sex Education element is planned for their child.

6 Monitoring, Review and Evaluation

Monitoring, review and evaluation of the Policy is the responsibility of the PSHCE lead, the Senior PSHCE Lead and Head teacher. The governing body will ask for information relating to the effectiveness of the policy when it is monitored every year. Information will be gathered from the Head Teacher, the PSHCE Leader, parents/carers and pupils to inform judgements about effectiveness.

The policy will be comprehensively reviewed with engagement from members of the school community every three years, or sooner if an issue or incident occurs which warrants it.

Information gathered to inform the comprehensive review may include information about pupil progress and attainment, feedback from the teachers about the curriculum provision and staff confidence, views of parents/carers, parent/carer comments and concerns, level of parent/carer withdrawal from Sex Education.
